INVESTOR PITCH • AUSTRALIA • 2025

HerMidlife

Australia's AI-Powered Perimenopause Care & Telehealth Platform

Inspired by Midi Health (USA) • Built for 7 Million Australian Women

Founded by Rudra & Team | India × Australia

7 Million Australian Women. Mostly Ignored by Healthcare.

7M

Women in peri/ menopause in AU

2M

With moderate to severe symptoms

1M

Women who left work due to it

75%

Who seek help get no treatment

"Women have been ignored by healthcare for too long. GPs are structurally unable to offer long menopause consultations. The system is broken."
— Medical Journal of Australia, 2023

Australia: A $432M Market Growing at 6.8% CAGR

$292M
AU market size today (2024)

$432M
Projected by 2030

6.8%
Annual growth rate (CAGR)

$573M
AU Gov women's health package 2025

Government Tailwind 🏛️

- New Medicare MBS items for menopause from July 2025
- PBS listing of hormone therapies — saving women $290/yr
- Senate inquiry: 25 recommendations for menopause care
- APS circular: employers must support menopausal staff
- 18% of AU employers adding menopause benefits in 2025

HerMidlife: End-to-End Perimenopause Care Platform

AI Symptom Checker

Smart quiz + daily tracking powered by AI workers. Flags severity, captures data.

Telehealth Consults

Partner GPs & nurse practitioners. Medicare-rebated. Same-day available.

AI Care Coordination

AI prepares patient summary before each consult. Nurses review & escalate.

Ongoing Coaching App

Between-appointment support: sleep, nutrition, mood, exercise tailored plans.

Pharmacy Integration

E-prescriptions, PBS-listed HRT. Future: own supplement line.

Employer Benefits

B2B: sell to AU corporates as employee benefit. Lowest CAC channel.

Same model. Proven. $1B valuation. We build the Australian version.

$1B+	$150M	25,000	$252M
Valuation (Dec 2025)	Revenue run rate	Patients per week	Total funding raised

How Midi Acquired 230,000+ Patients

Employer B2B Deals

~$30–80 CAC

Fortune 100 companies. One deal = thousands of users. Bulk CAC near zero.

Health System Referrals

~$50 CAC

Partnerships with Mount Sinai, Memorial Hermann. Patients handed over.

DTC Paid + PR

~$200–400 CAC

Meta/Instagram ads + NYT/Vogue/People coverage. Brand building.

Sarah, 44, Sydney — Her Journey With HerMidlife

1 Confusion

Age 38–44

Tired, mood swings, bad sleep. GP says 'too young for menopause'. Gets antidepressants.

2 Discovery

Finds HerMidlife

Takes our free AI symptom quiz. Gets personalised report. First time she feels understood.

3 First Consult

Books telehealth

Sees a partner nurse practitioner. Medicare rebate applied. Gets a care plan same day.

4 Ongoing Care

Monthly check-ins

AI tracks symptoms. Nurse reviews. App coaches sleep & nutrition. Prescriptions managed.

5 Advocate

18 months later

Sarah feels like herself. Recommends HerMidlife to 3 friends. LTV: $700+. CAC: $0.

💰 Sarah spends AUD $1,500–$4,000/year on menopause care today | HerMidlife captures $468–$702 of that as recurring subscription + consult revenue

AI Workers + Human Nurses = Scalable, Low-Cost, High-Quality Care

LAYER 1 — AI Workers (Automation)

- Symptom intake quiz & scoring
- Daily mood/symptom tracking
- Pre-consult patient summary for doctor
- Prescription reminder automation
- Personalised content & coaching nudges

LAYER 2 — Human Nurses (Validation)

- Review AI-generated summaries
- Escalate complex cases to doctors
- Conduct coaching calls with patients
- Train AI on new clinical data
- Quality assurance & compliance

LAYER 3 — Partner Doctors (Medical)

- Telehealth video consultations
- Prescribe HRT & non-hormonal Rx
- Order blood tests & investigations
- Refer to specialists when needed
- Medicare-rebated consultations

Built lean: India-based tech team + open-source telehealth tools + AI APIs. No proprietary platform needed to launch.

3-Engine Acquisition Model (Low CAC by Design)

ENGINE 1
B2B Employer Deals

AUD $10–30 CAC

- Sell to AU companies: Telstra, ANZ, BHP, Woolworths
- 1 deal = 2,000+ users overnight
- AUD $100/employee/year = $200K contract per deal
- 5 deals = $1M ARR before any paid ads
- Employer pays — user pays nothing

ENGINE 2
Doctor Partnerships

AUD $0–50 CAC

- Partner GPs refer their menopause patients to us
- We handle continuity — they get a better patient experience
- Target: 10 doctors × 5 referrals/month = 50 warm patients
- Add health insurer deals: Medibank, Bupa
- Near-zero acquisition cost per patient

ENGINE 3
DTC: Content + Paid

AUD $150–300 CAC

- Your AU co-founders ARE the brand. Real stories.
- Meta/Instagram: target women 38–55 in AU
- Google: 'perimenopause symptoms', 'menopause telehealth AU'
- SEO blogs, symptom guides (long-term organic)
- PR: pitch to ABC, Herald, Women's Agenda

Target: Year 1 blended CAC < AUD $100 | LTV $468–$702 | LTV:CAC ratio > 5:1

The Numbers That Make This Business Work

CAC by Channel (Australia)

Channel	Cost Per Lead	CAC (Paying)	Quality
Employer B2B	N/A	$10–30	★★★★★
Doctor Referral	N/A	$0–50	★★★★★
Meta/Instagram	$7–15 AUD	$150–300	★★★
Google Search	$50–100 AUD	$200–400	★★★★
SEO / Content	$5–20 AUD	$30–80	★★★★
Word of Mouth	$0	$10–30	★★★★★

Key Metrics

Monthly Subscription	**AUD $39/mo**
LTV (12 months)	**AUD $468**
LTV (18 months)	**AUD $702**
Target blended CAC	**AUD <$100**
LTV : CAC ratio target	**>5 : 1 ✓**
Payback period	**~3–5 months**

Subscribers needed for sustainability:

AU Facebook CPL: AUD ~$7 | AU Meta CPA: AUD ~$384 | Healthcare telehealth avg CAC: $150–$300

4 Revenue Streams. All Compounding Over Time.

01 Subscription

Phase 1

AUD $39/month

Core app access: AI symptom tracking, coaching, community. Recurring monthly revenue.

02 Consult Revenue Share

Phase 1

AUD $40–80/consult

Platform fee or revenue share from partner doctor teleconsults. Medicare rebatable.

03 Employer B2B Packages

Phase 2

AUD $80–120/employee/yr

Corporate wellness packages. Sold to HR as employee retention & diversity benefit.

04 Pharmacy & Supplements

Phase 3

15–30% margin

Prescription coordination with AU pharmacies. Own supplement line launching Phase 3.

3-Phase Build: Validate → Grow → Scale

PHASE 1
Validate (Month 1–3)

Marketing budget: AUD $15–20K

Target: First 100–500 users

- Launch AI symptom checker (free)
- Sign 3–5 GP/nurse partners
- Meta test campaign AUD $2K/mo
- Founders do 10 HR/employer conversations
- Collect user feedback obsessively

PHASE 2
Grow (Month 4–12)

Marketing budget: AUD $10–17K/mo

Target: 1,000–5,000 subscribers

- Scale Meta + Google ads
- Close first 2–3 employer deals
- Launch subscription tier
- Add telehealth consult booking
- SEO content engine running

PHASE 3
Scale (Year 2+)

Marketing budget: AUD $30–50K/mo

Target: 10,000+ subscribers

- Major employer/insurer contracts
- Launch supplement line
- Pharmacy partnership live
- Consider raising AUD $2–5M seed
- Expand to NZ & Southeast Asia

India Builds. Australia Sells. Women Lead.

Rudra

Co-Founder, CEO

📍 India

Product & technology lead. Builds the platform using AI tools. Vision, strategy & investor relations.

AU Partner (Woman 1)

Co-Founder, Clinical Lead

📍 Australia

Has lived experience of perimenopause. Drives doctor partnerships, clinical protocol & brand authenticity.

AU Partner (Woman 2)

Co-Founder, Marketing

📍 Australia

Community building, employer partnerships & social media. The voice of the brand to Australian women.

AU Partner (Woman 3)

Co-Founder, Operations

📍 Australia

Regulatory compliance, Medicare navigation, nurse network, telehealth partner management.

Our Unfair Advantage: Women who lived perimenopause + India tech cost base + real clinical partnerships = Midi Health at 1/10th the build cost

Australia's Competitors Are Doing Consults. We Do the Whole Journey.

Company	Model	AI?	Employer B2B?	Ongoing Care?	Supplements?
WellFemme (AU)	Telehealth consults only	No	No	No	No
Viv Health (AU)	Consults + $29/mo	No	No	Basic	No
Midi Health (USA)	Full platform + insurance	Yes	Yes ✓	Yes ✓	Yes ✓
HerMidlife (US)	**AI + Nurses + Doctors + B2B**	**Yes ✓**	**Yes ✓**	**Yes ✓**	**Yes ✓**

Why HerMidlife Wins in Australia

- Only platform combining AI + nurses + doctors + employer B2B + pharmacy in Australia
- Medicare-aligned from day one — new MBS codes from July 2025 are our tailwind
- Ongoing care model (not just consults) means higher LTV and sticky users

Conservative Path to AUD $5M+ ARR

Metric	Year 1	Year 2	Year 3
Paying subscribers	1,000	5,000	15,000
Employer deals	2	8	20
Monthly subscription revenue	$39K	$195K	$585K
Consult revenue share	$8K	$40K	$120K
Employer B2B revenue	$16K	$64K	$160K
Total ARR	**~$756K**	**~$3.6M**	**~$10.4M**
Est. blended CAC	AUD $120	AUD $90	AUD $60
Marketing spend/month	$10–17K	$25–40K	$50–80K

**Projections are indicative based on $39/mo subscription, $80/consult revenue share, $100/employee/yr B2B pricing. Supplement revenue not included.*

THE ASK

What We Need to Make This Real

Capital

AUD $200–500K

Seed/friends & family round to fund 12 months of operations, marketing and clinical partnerships. No VC needed to launch.

Doctor Partners

3–5 Clinicians

GPs or nurse practitioners specialising in women's health. Revenue share model. No upfront cost to them.

Corporate Pilots

2 Employer Deals

Any AU company with 500+ female employees willing to pilot menopause benefits. This proves the B2B model.

herMidlife.com.au • Rudra@hermidlife.com • Australia × India

"If you build it, they will come.

Midi built it in the US. Women came.

We're building it for Australia's 7 million women.
We just need the right partners to come with us.

— Joanna Strober, Midi Health CEO (adapted)
